

+Indirect Business Taxes

Incidents are not inside the U.S.

The Incomes Approach

$$\text{GDP} = \text{Rental Income} + \text{Wages} + \text{Profits} + \text{Interest Income}$$

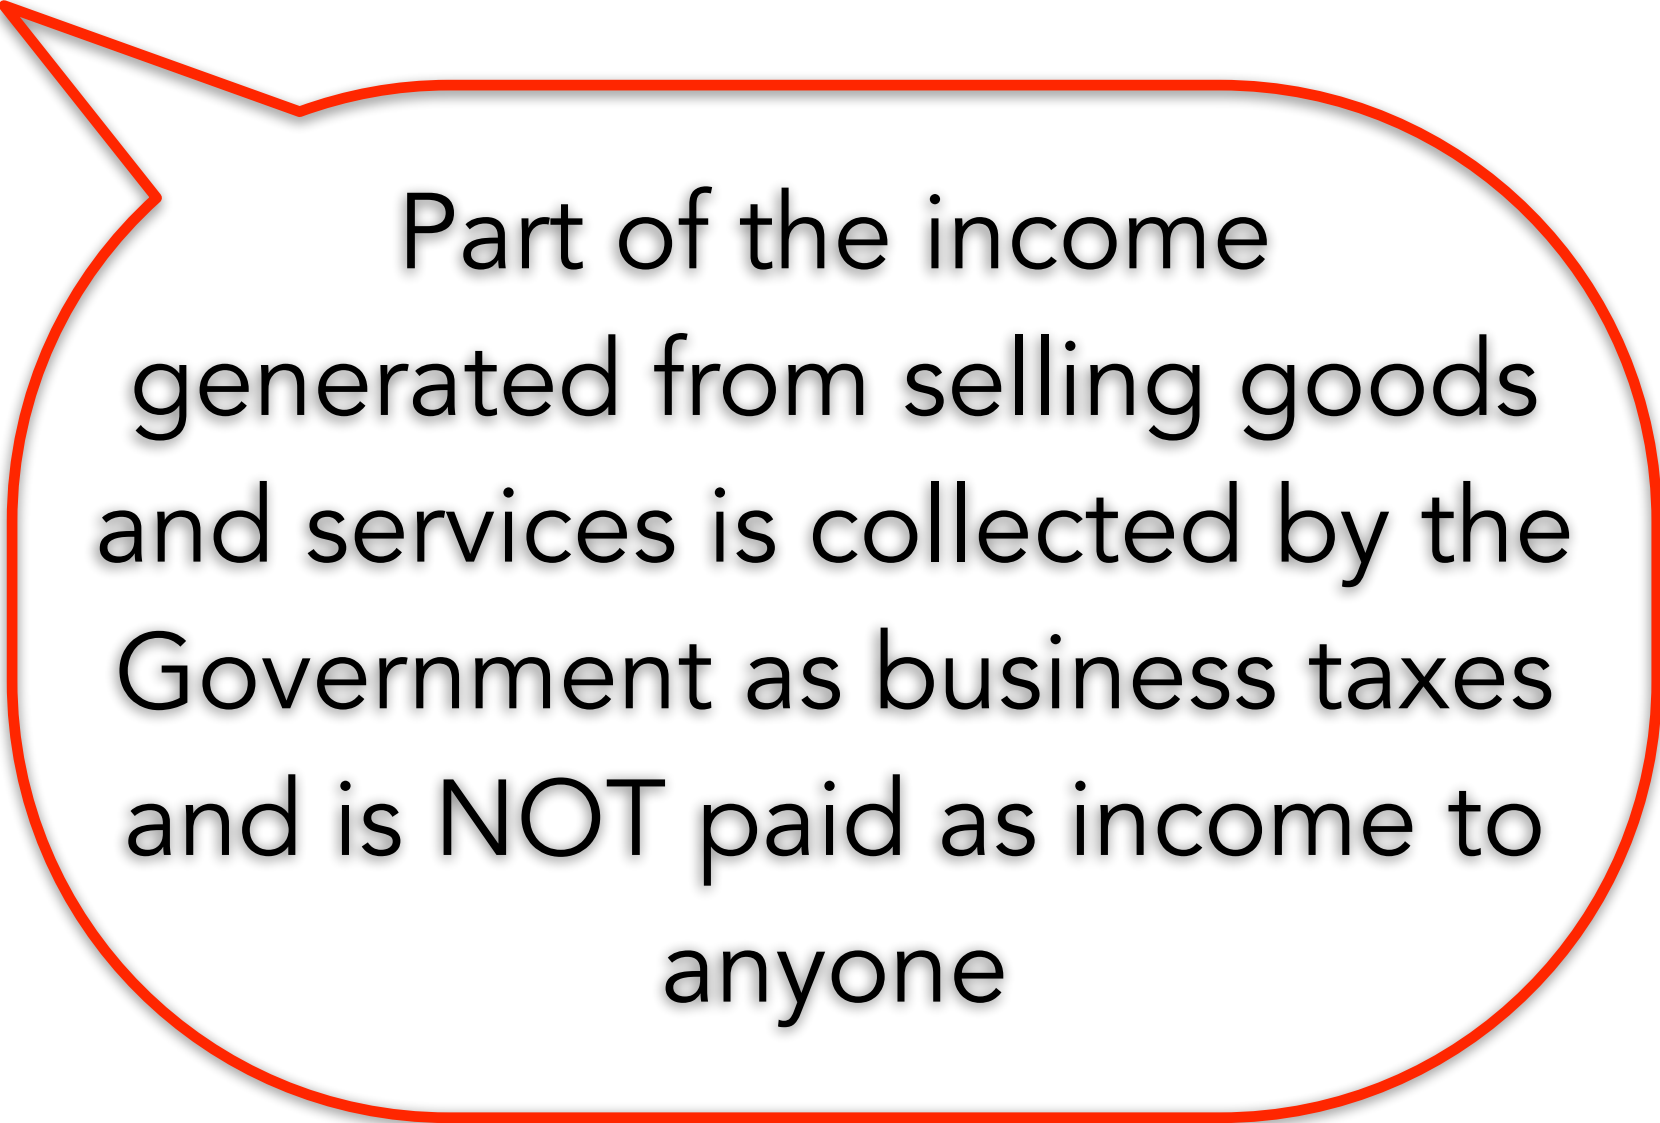

Part of the income
generated from selling goods
and services is collected by the
Government as business taxes
and is NOT paid as income to
anyone

The **Incomes** Approach

Incomes earned **inside** the U.S.

$$\text{GDP} = \text{Rental Income} + \text{Wages} + \text{Profits} + \text{Interest Income} \\ + \text{Indirect Business Taxes}$$

Part of the income generated from selling goods and services is collected by the Government as business taxes and is NOT paid as income to anyone
