

THE FED'S "T" ACCOUNT

Assets

Liabilities

--	--

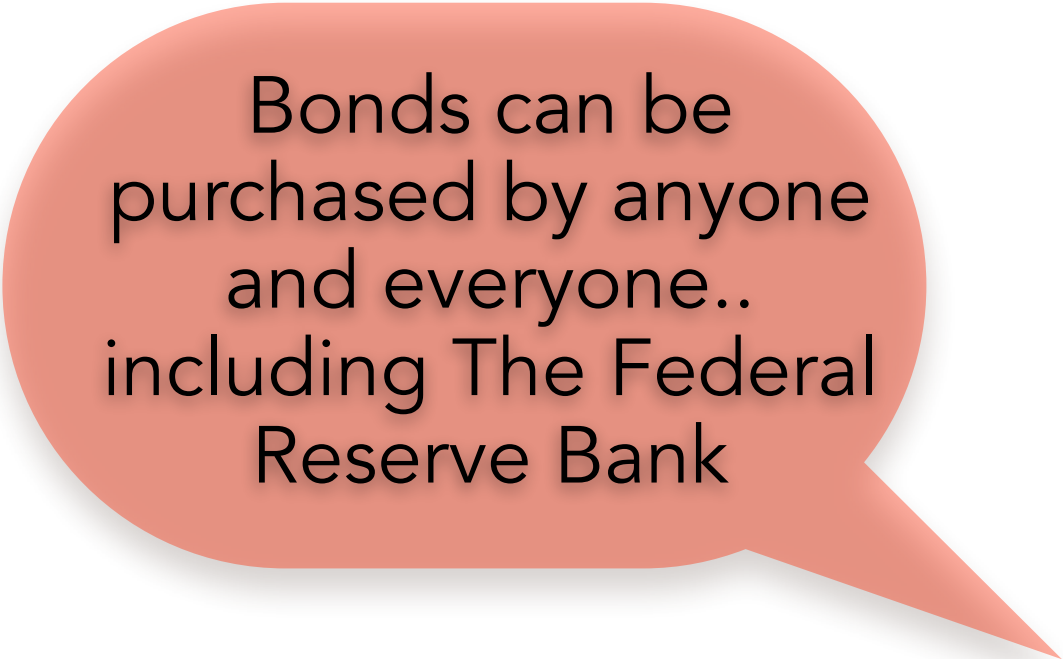

Obviously there are many other assets and liabilities. We list only those relevant to Monetary Policy

Bonds are an Asset to the Fed: they represent money the Government owes the holder of the bond: The Fed

Bank reserves are a
liability to the Fed:
These reserves
belong to banks

A red speech bubble with a white drop shadow, pointing towards the bottom right. Inside the bubble, the text "Bonds can be purchased by anyone and everyone.. including The Federal Reserve Bank" is written in a black, sans-serif font, centered and arranged in four lines.

Bonds can be
purchased by anyone
and everyone..
including The Federal
Reserve Bank
