Consumers
spent 3,875
Billion

Consumers
spent 2,750
Billion

A large, light pink speech bubble with a pointed tail at the bottom center. Inside the bubble, the text "Consumers saved 500 Billion" is written in a bold, pink, sans-serif font.

Consumers
saved 500
Billion

A light pink speech bubble with a tail pointing towards the bottom-left corner. Inside the bubble, the text "Consumers saved 625 Billion" is written in a bold, pink, sans-serif font, arranged in three lines.

Consumers
saved 625
Billion

A pink speech bubble with a pointed tail pointing towards the top-left corner. Inside the bubble, the text "Consumers saved zero" is written in a bold, pink, sans-serif font.

Consumers
saved zero

When
income was
3,000 Billion

When
income was
4,500 Billion

A large, light pink speech bubble with a darker pink outline and a small tail pointing downwards and to the left. Inside the bubble, the text "Consumers saved 250 Billion" is written in a bold, pink, sans-serif font.

Consumers
saved 250
Billion

We can calculate the amount of income consumers **saved**.

$$\text{Saving} = \text{Income} - \text{Consumption}$$

Once we have the amount of income consumers **spent**...

We can calculate the amount of income consumers **saved**...
