If s/he
confesses

If you don't
confess

You get:
10 years

s/he gets:

zero years

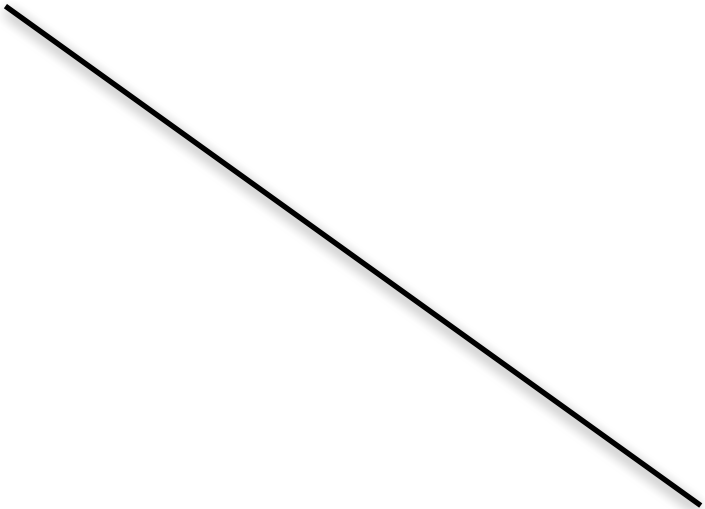

If **neither** confess, both get six
months in jail for a minor charge

You get:
6 months

s/he gets:

6 months

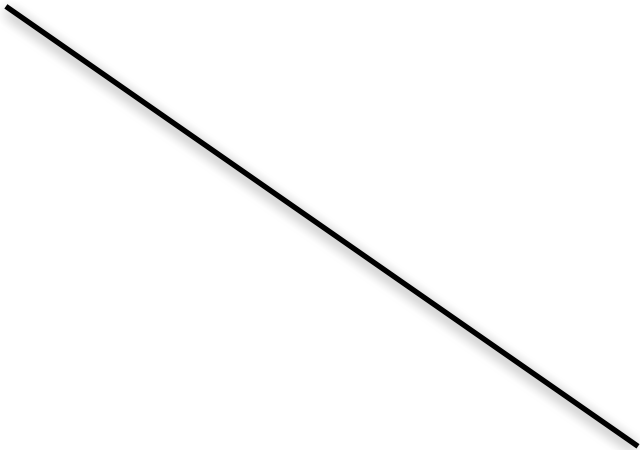

If **both** confess, each receives a
5-year sentence

You get:

5 years

s/he gets:

5 years

You and your partner are arrested. The police have insufficient evidence for a conviction, so they put you in separate rooms to prevent you from talking to each other.

If **you confess** and **your partner** does
not, you go free and s/he receives a 10-
year sentence

Time spent in jail

If your partner confess and you
don't, s/he goes free and you receive
a 10-year sentence

Prisoner's Dilemma

You and your partner are arrested. The police have insufficient evidence for a conviction, so they put you in separate rooms to prevent you from talking to each other.

You are offered the following deal:

If **you confess** and **your partner does not**, you go free and s/he receives a 10-year sentence

If **your partner confess** and **you don't**, s/he goes free and you receive a 10-year sentence

If **neither** confess, both get six months in jail for a minor charge

If **both** confess, each receives a 5-year sentence

Time spent in jail		
	If s/he does not confess	If s/he confesses
If you confess	<div>s/he gets: 10 years</div> <div>You get: zero years</div>	<div>s/he gets: 5 years</div> <div>You get: 5 years</div>
If you don't confess	<div>s/he gets: 6 months</div> <div>You get: 6 months</div>	<div>s/he gets: zero years</div> <div>You get: 10 years</div>

Should you confess or not?

	If s/he does not confess	If s/he confesses
If you confess	<div>s/he gets: 10 years</div> <div>You get: zero years</div>	<div>s/he gets: 5 years</div> <div>You get: 5 years</div>
If you don't confess	<div>s/he gets: 6 months</div> <div>You get: 6 months</div>	<div>s/he gets: zero years</div> <div>You get: 10 years</div>
