GDPo

Aggregate Supply
when prices = P_o

Price Level
(CPI)

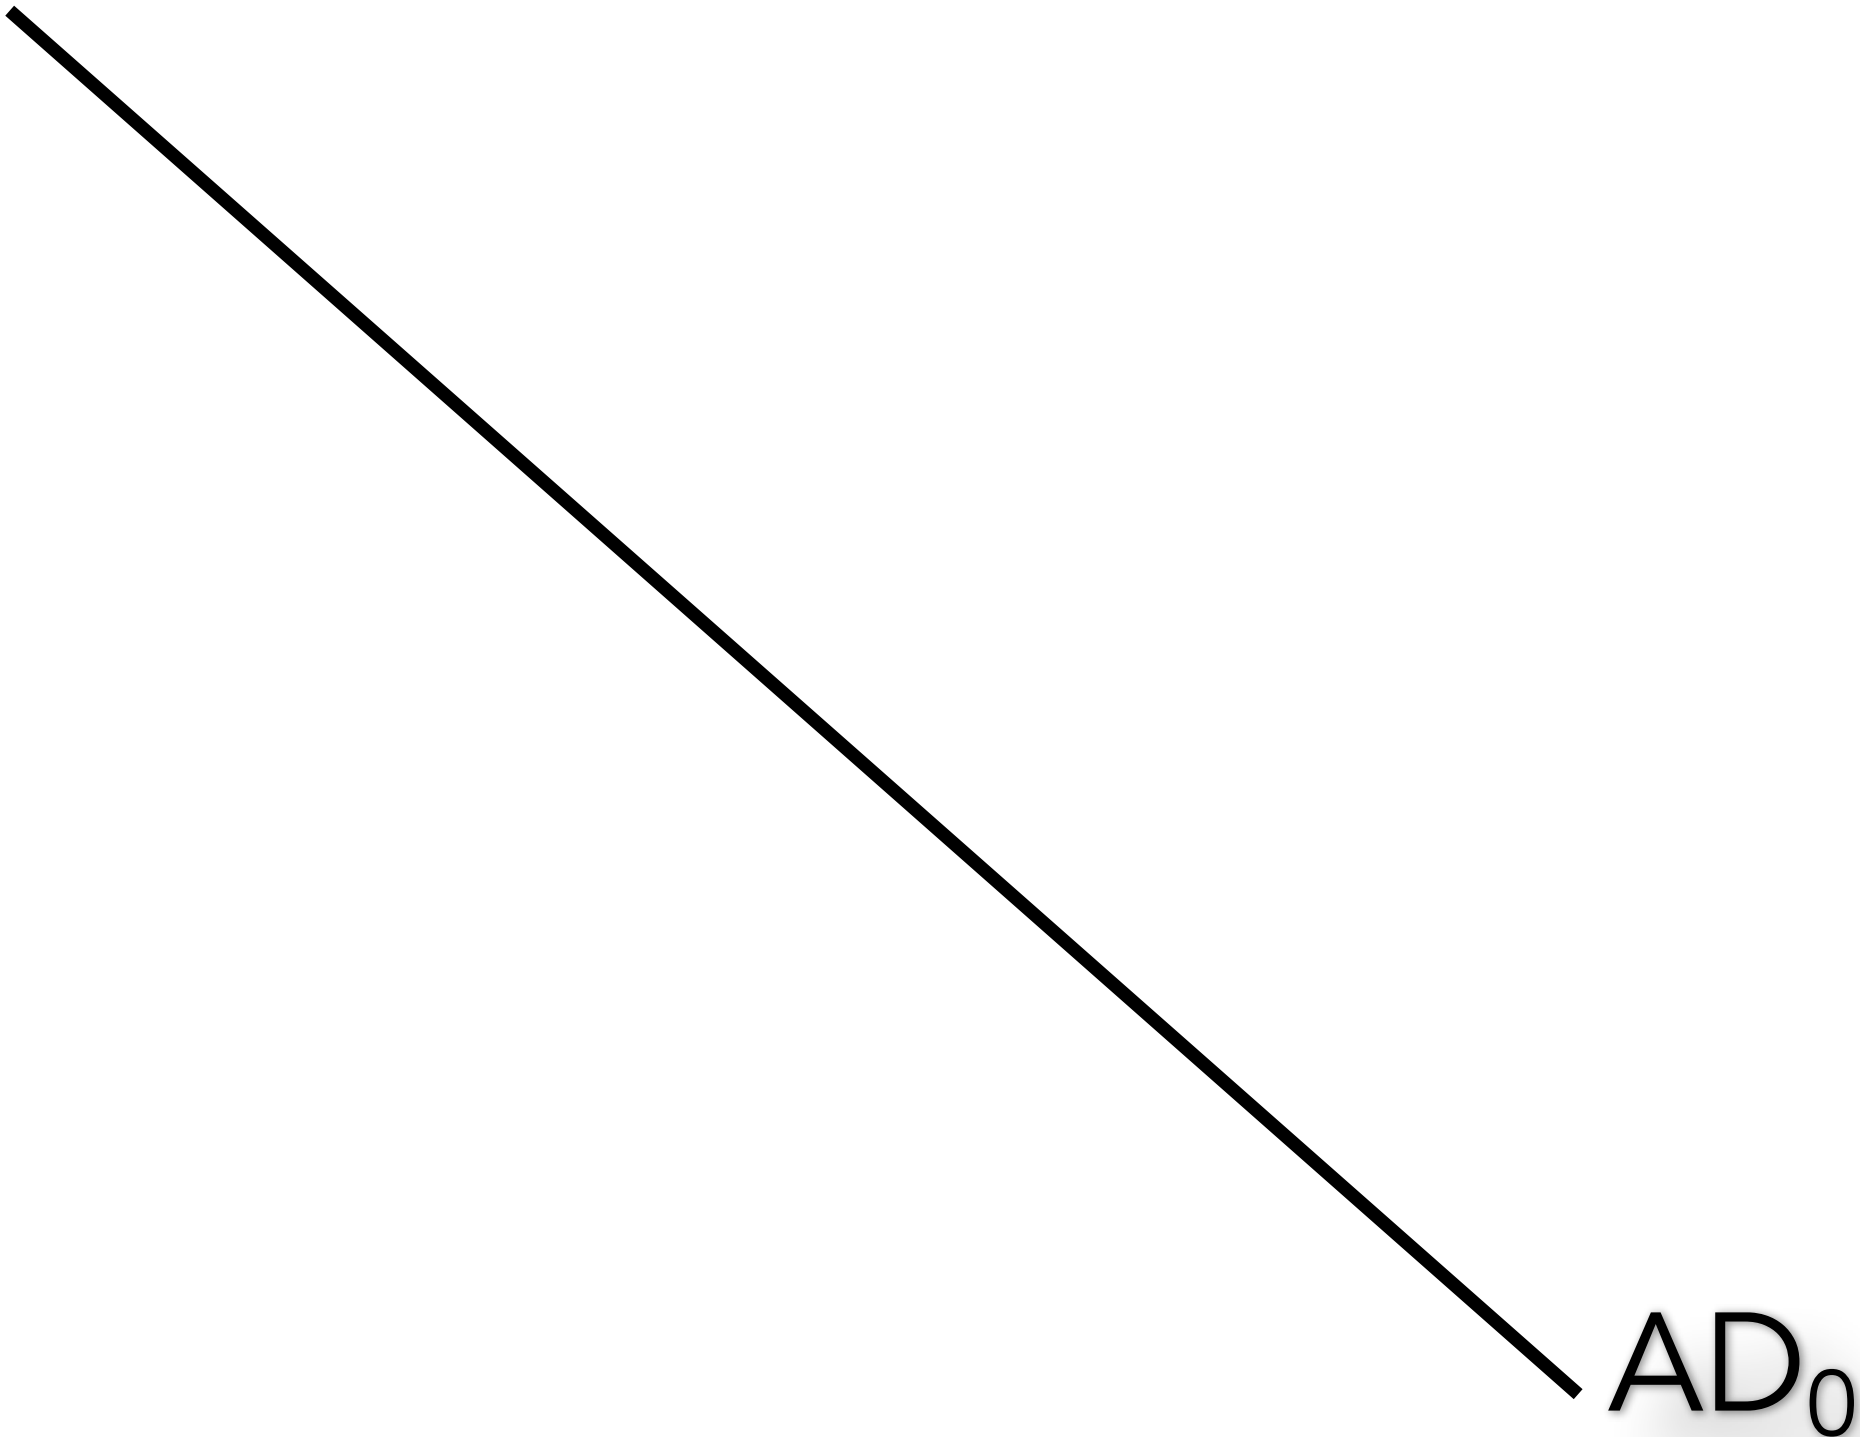

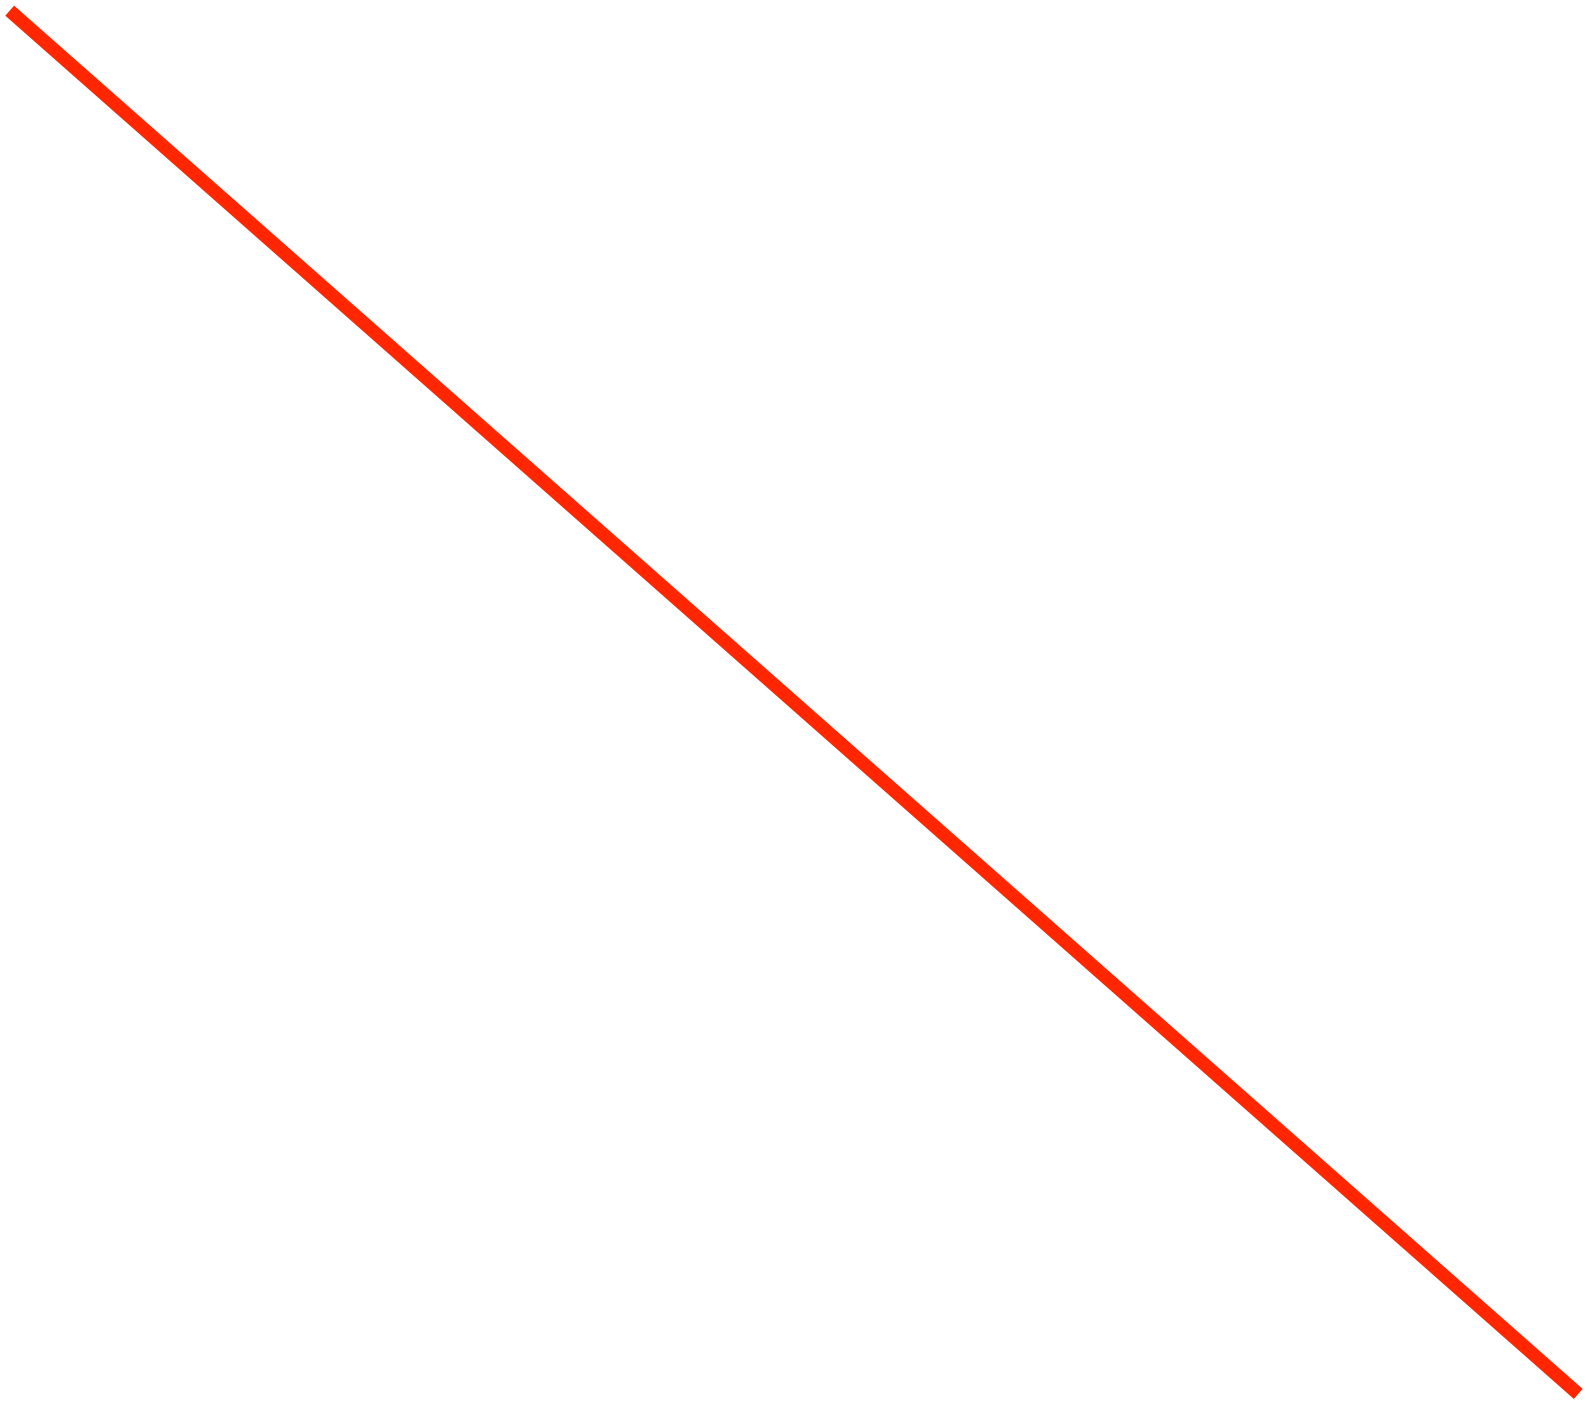

Firms increase prices
NOT production

AS: Potential GDP

$$\Delta AD = 280$$

AD₁

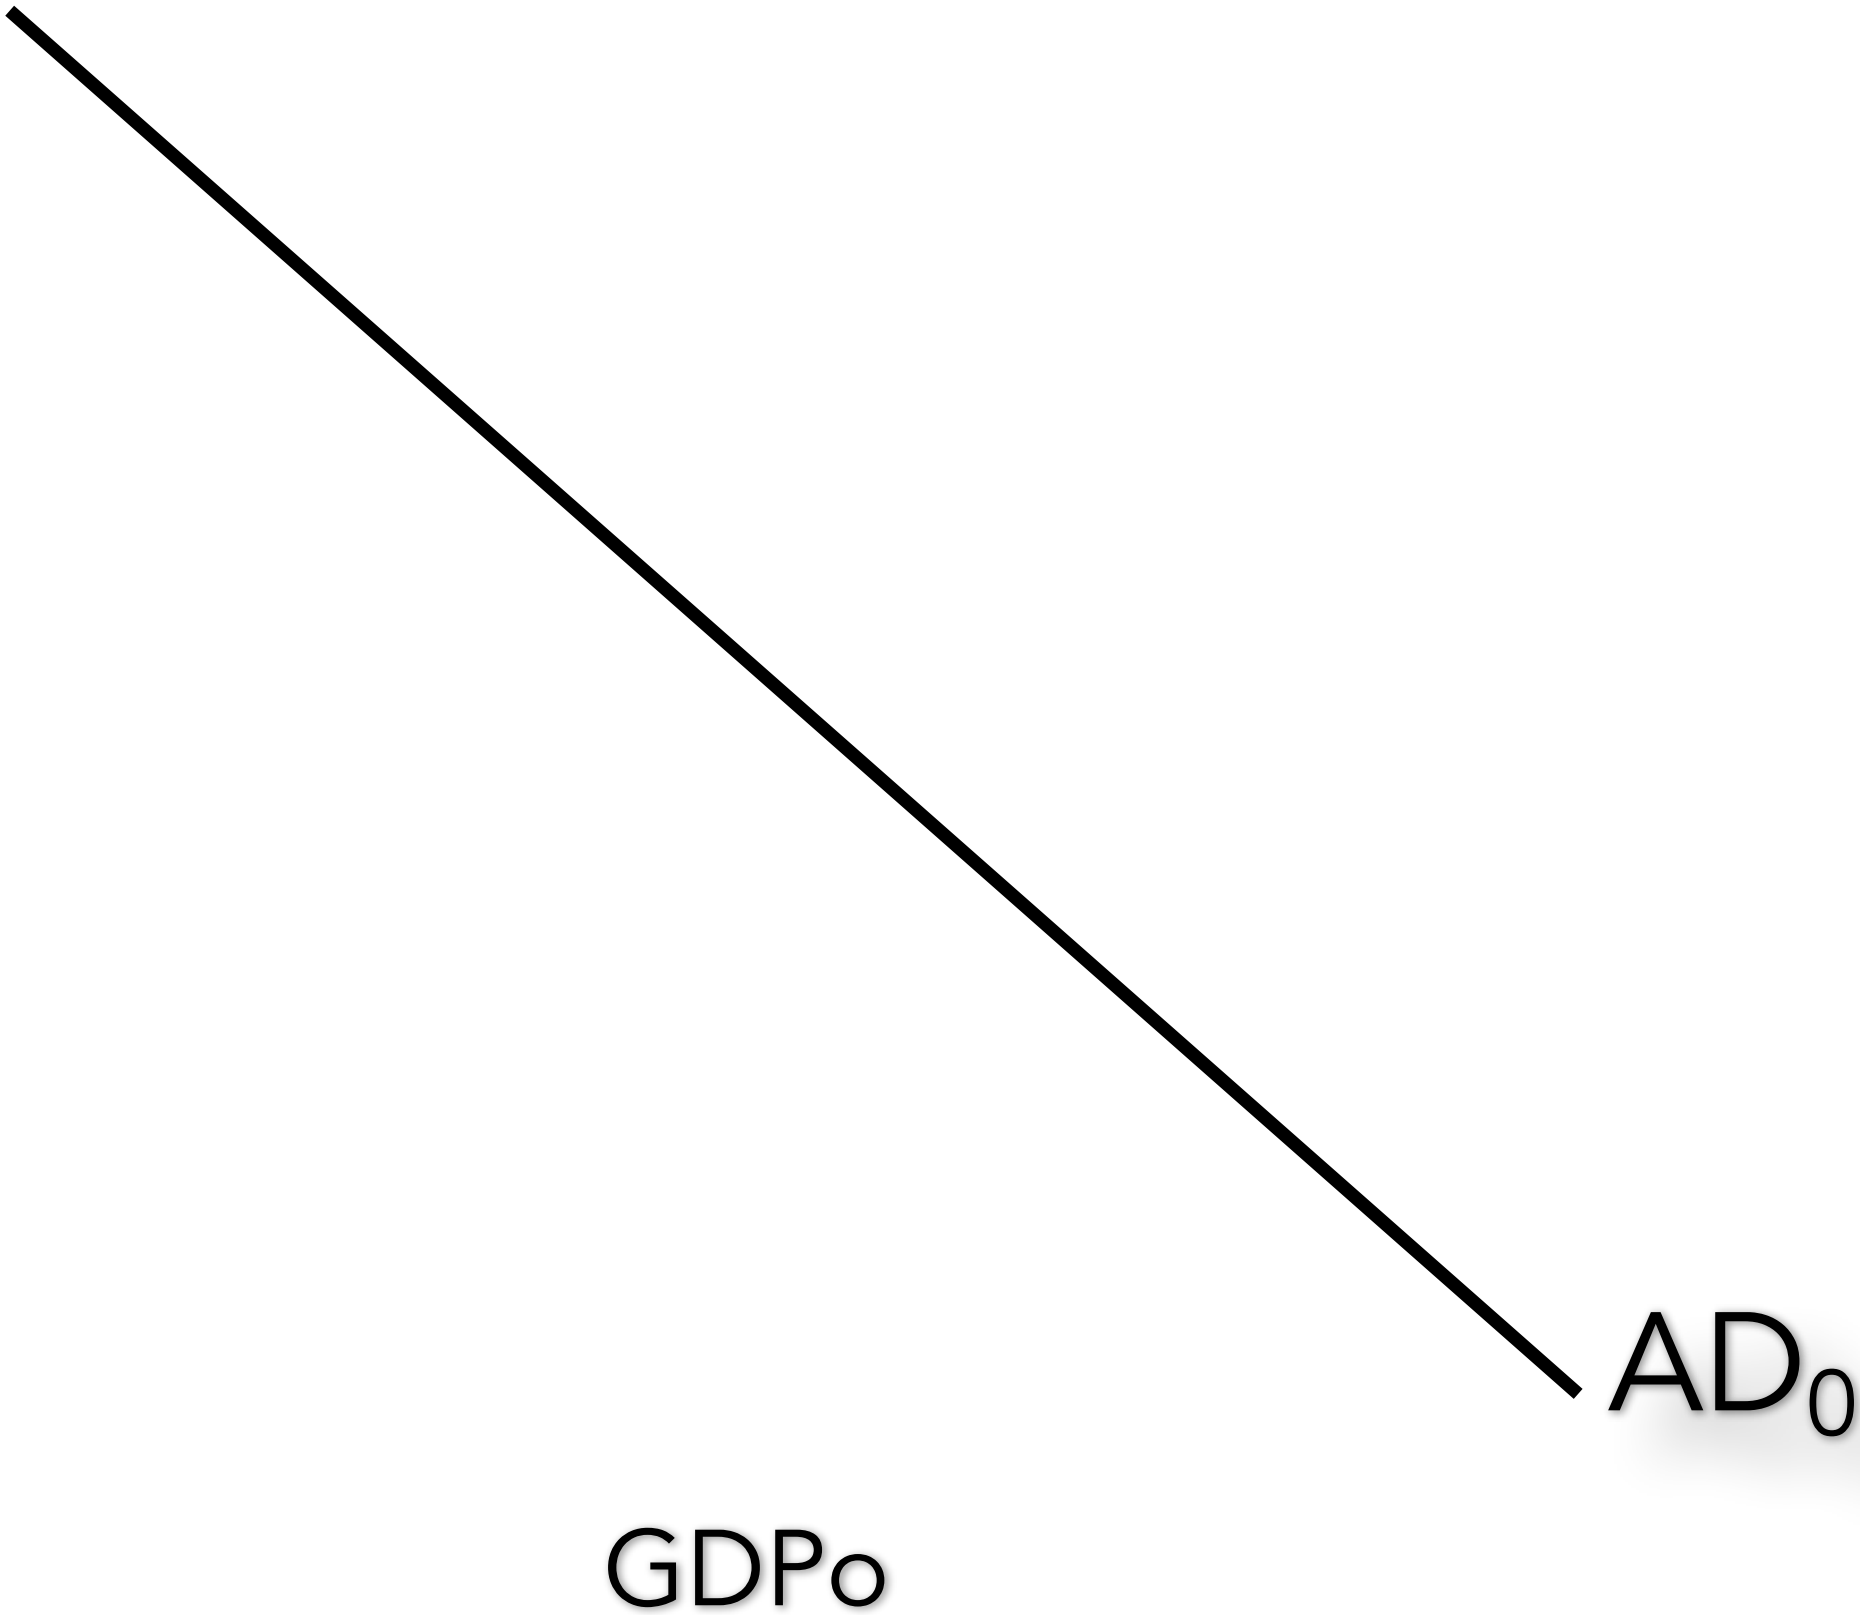

Aggregate Demand
when prices = P_o

=

GDP₁

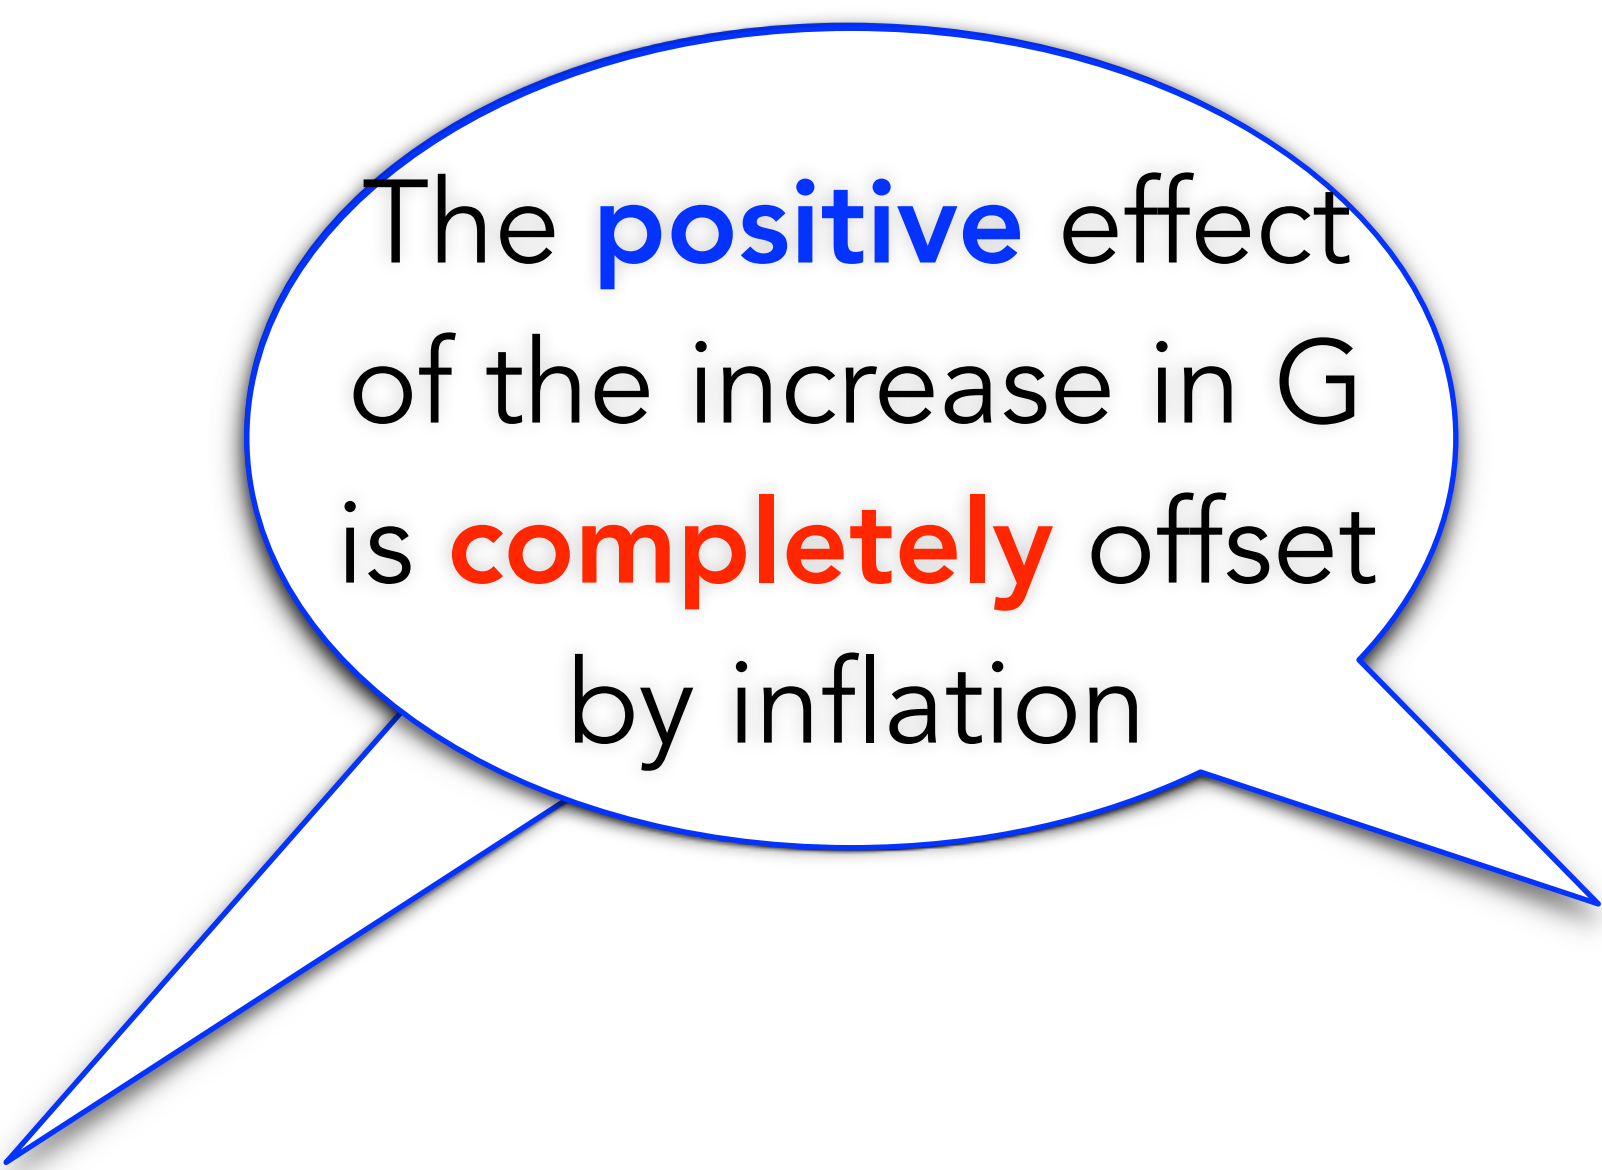

280

increase in
Demand

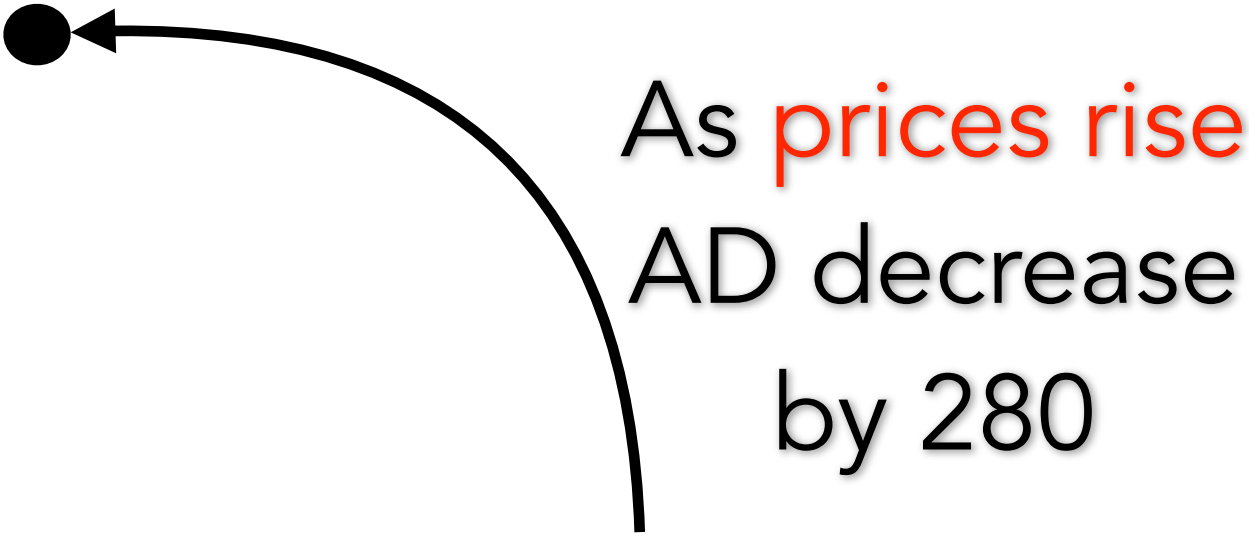

**Increase in
GDP = 0**

Fully Emptyment: Vertical AS

The **positive** effect
of the increase in G
is **completely** offset
by inflation

P_1

Full Employment: **Vertical** AS
