

Why is the CCIPL important?

• Government **uses** it to **set** **interest** **rates**

- It is used in labor contracts to calculate salary increase during the life of the contract

- Landlords are allowed to increase **rents** by CPI inflation

- Judges use it to calculate *alimony* and child support payments

• The Government uses it to adjust income tax brackets

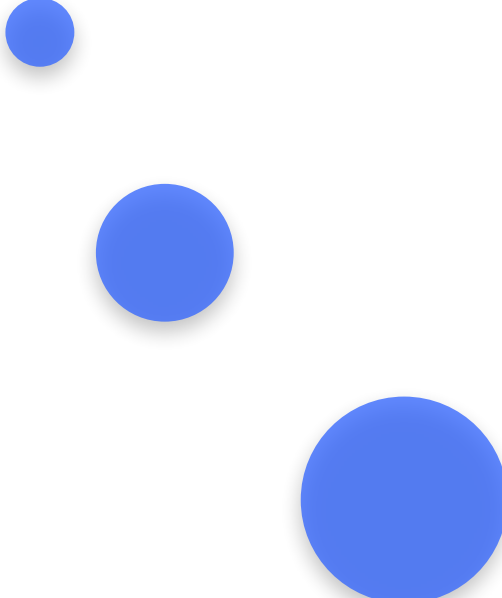

● It is used to adjust:

• Social Security payments

• Federal and Military pensions

# • Food Stamps and School Lunches

It is very important  
to calculate inflation  
correctly

Because it  
affects  
everyone!

# Why is the CPI important?

- Government use it to set **interest rates**
- It is used in **labor contracts** to calculate salary increase during the life of the contract
- Landlords are allowed to increase **rents** by CPI inflation
- Judges use it to calculate **alimony** and child support payments
- The Government use it to adjust **income tax** brackets
- It is used to adjust:
  - **Social Security** payments
  - Federal and Military **pensions**
  - Food Stamps and School Lunches

Because it affects everyone!

It is very important to calculate inflation correctly

We **do not** calculate the CPI correctly: **Substitution** Bias
