Best

We then ignore
this side of the
matrix

We then ignore
his/her result

If you don't confess you get
6 months in jail

Your best decision if s/he does not
confess is to confess

First, assume that your partner does **NOT** confess
Second, assume that you only care what happens to you

We then ignore his/her result
We then ignore this side of the matrix

Your best decision if s/he does not confess is to **confess**

Your best decision is clear:
If you confess, you get **zero**
If you don't confess you get **6 months in jail**

	If s/he does not confess
If you confess	Best You get: zero years
If you don't confess	You get: 6 months

	If s/he does not confess	If s/he confesses
If you confess	<div>s/he gets: 10 years</div> <div>You get: zero years</div>	<div>s/he gets: 5 years</div> <div>You get: 5 years</div>
If you don't confess	<div>s/he gets: 6 months</div> <div>You get: 6 months</div>	<div>s/he gets: zero years</div> <div>You get: 10 years</div>
