

- Taxes are charged on the **nominal** interest and on the **nominal** Capital Gain and **not** on the **real** interest and the **real** Capital Gain

- The higher inflation is, the larger is the difference between your **real** interest/capital gain and your **nominal** interest/capital gain

- The higher inflation is, the larger is the difference between the tax you **should** pay and the tax you **actually** pay

38

Inflation

Unfair Tax: Individuals whose incomes mainly come from Interest Income and capital gains, **lose** (pay more taxes than they should)

True Cost of Inflation: Unfairly taxes Capital Gains and
Interest Income

True Cost of Inflation: Unfairly taxes Capital Gains and Interest Income

- Taxes are charged on the **nominal** interest and on the **nominal** Capital Gain and **not** on the **real** interest and the **real** Capital Gain
- The higher inflation is, the larger is the difference between your **real** interest/capital gain and your **nominal** interest/capital gain
- The higher inflation is, the larger is the difference between the tax you **should** pay and the tax you **actually** pay

Unfair Tax: Individuals whose incomes mainly come from Interest Income and capital gains, **lose** (pay more taxes than they should)

Why then do such harmful laws stay on the books?
