$$PS = \text{Base} \times \text{Height} \times \frac{1}{2}$$

$$PS = 250 \times (35 - 5) \times 1/2$$

$$PS = 250 \times (30) \times \frac{1}{2} = \$3,750$$

At Equilibrium consumers **pay** and  
producers **receive** the equilibrium price:

$$P_e = 35 \text{ — — — — —}$$

$$P_e = 35$$

$Q_e = 250$

$$35 - 5$$

0

250

The image is a vertical rectangle divided diagonally from the bottom-left corner to the top-right corner. The upper-left triangular portion is a solid, bright yellow, while the lower-right triangular portion is a solid, clean white. In the center of the yellow triangle, the letters 'PS' are printed in a large, bold, black, sans-serif typeface. The letters are slightly offset towards the top-left of the yellow area, leaving more space around them.

PS

# Producer Surplus at Equilibrium

At Equilibrium consumers **pay** and producers **receive** the equilibrium price:

$$P_e = 35$$

$$PS = \text{Base} \times \text{Height} \times \frac{1}{2}$$

$$PS = 250 \times (35 - 5) \times \frac{1}{2}$$

$$PS = 250 \times (30) \times \frac{1}{2} = \$3,750$$
