

Murders per 100,000 people

Change in murder rate*, %

Since inauguration of progressive prosecutor

↑ Progressive prosecutors
had no impact on murders

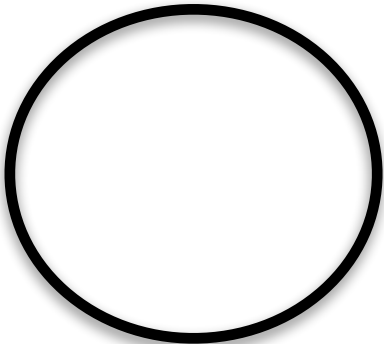

*In 35 American cities and counties between 2015 and 2021

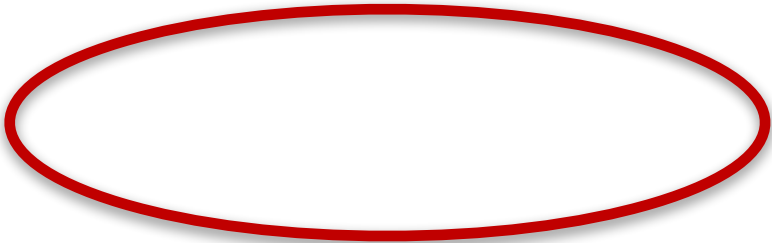

Homicide rates were
worse in areas with
higher
unemployment

America has seen an explosion in violence since the start of the covid-19 pandemic.

The national murder rate increased by 29% between 2019 and 2020—the largest single-year jump since 1905. That wiped out 20 years of progress on homicide.

Are **progressive**
prosecutors to blame for an
American homicide wave?

Murder rates are the same
