

A firm that has incurred high sunk costs to enter the industry, will find it expensive (difficult) to **exit** since these costs can not be recovered.

A firm that has to incur high (sunk) costs to enter an industry, will find it expensive (difficult) to **enter** because these costs can not be recovered.

Sunk Costs act as both a barrier to Enter and a barrier to Exit

Sunk Costs act as both a barrier to **Enter** and a barrier to **Exit**

A firm that has to incur high (sunk) costs to enter an industry, will find it expensive (difficult) to **enter** because these costs can not be recovered.

A firm that has incurred high sunk costs to enter the industry, will find it expensive (difficult) to **exit** since these costs can not be recovered.

When firms in the  
industry make **above**  
**normal profits**
