We will use the following values for this example:

C = 100 + 0.9Y

G = 500 billion

= 1,000 billion

M = 500 billion

X = 800 billion

NX = 800 - 500 = 300

The Components of Aggregate Expenditures

The Components of Aggregate Expenditures

We will use the following values for this example:

$$C = 100 + 0.9Y$$

$$G = 500$$
 billion

$$M = 500$$
 billion

$$NX = 800 - 500 = 300$$

$$X = 800$$
 billion
